PERSONALIZED DIGITAL STARTER

MyKidsNest Forest Room

Short design direction summary

This document accompanies one personalized concept image. It is a conceptual visualization and design-direction summary, not a technical or construction document.

MYKIDSNEST

CONCEPTUAL VISUALIZATION

C - Constrained Layout

PERSONALIZED DIRECTION

Lighter forest palette for a darker room - Limited natural light, irregular geometry, multiple furniture restrictions

Suggested palette

Fictional pilot input - exact Forest production artwork - not a construction plan

Customer-provided preferences

Internal reference	SYNTH-FOREST-C-001
Age range	5-7
Room information	Irregular room geometry; approximate dimensions intentionally omitted
Color direction	Lighter forest palette for a darker room
Forest elements	Window woodland view and restrained mushroom-light cues
Existing furniture	Existing bed and storage must remain
Constraints	Limited natural light, irregular geometry, multiple furniture restrictions

Forest Room concept

Use the established practical Forest Room identity as the visual anchor: canopy bed, meadow-inspired floor, mushroom-light cues, restrained deer presence, natural tree, and window wall. Personalization changes the recommended emphasis, palette, and high-level styling direction; it does not claim an exact built result.

Suggested color direction

#EEF0DD	#BFCDAA	#D8C9AE	#A78972

High-level styling suggestions

- Use lighter wall and textile values so the forest direction does not darken the room further.
- Treat the irregular geometry as a manual review trigger before suggesting any layout change.
- Keep existing furniture positions provisional until adult-provided measurements are checked.
- Use layered ambient lighting as a visual direction only, not as an electrical specification.

Manual review: irregular geometry and multiple constraints require human review before any real layout recommendation.

Scope and limitations

Included: one personalized Forest Room concept image and this short PDF design direction summary.

Excluded: physical furniture, lighting, toys, decorations, procurement, construction or installation, detailed technical drawings, exact furniture specifications, additional perspectives, unlimited revisions, architectural advice, and safety certification.

No sleep, medical, therapeutic, behavioral, construction, or safety outcome is promised. Verify all real-world measurements, product suitability, installation, and child-safety decisions with qualified adults and professionals.
